The Monastyrishche SRF Probable Regional Headquarters Facility is located at Monastyrishche Army Barracks, AL 1, on the east side of Monastyrishche, USSR. It consists of a triple-sectioned probable command bunker under construction. One section of the bunker is completed and excavations for the other 2 sections are present. Immediately east of the triple-sectioned bunker is an older previously reported HF communications facility containing 4 horizontal dipoles, 5 probable mast-mounted VHF antennas, and a control building. There is no indication, other than location, that this facility will serve the probable headquarters.

A HF Communications Facility, which may be associated with the probable headquarters, is under construction 13 nm south-southeast of Monastyrishche. It consists of an arch-roofed control building, 4 double end pole rhombic antennas, and 4 single rhombic antennas, which are in varying stages of construction. None of these antennas is oriented toward Moskva.
